

Happy National Skilled Nursing Care Week!

We appreciate our partners in care and the services they provide in our community. Freedom Home Care offers rehabilitative patients of Skilled Nursing Facilities options for transitioning home safely.

Back to Home

The Back to Home care program is a short-term package designed to help residents make a safe transition home. Transitioning back home after rehabilitation or hospitalization can help prevent re-hospitalization and/or readmission to a skilled nursing facility. Find out more about the [Back to Home](#) program.

Dual Discharge

The Dual Discharge program offers a combined solution to ensure a much safer transition home. We offer a combined solution by partnering with home health agencies to ensure a safe discharge and prevent re-hospitalizations. Find out more about the [Dual Discharge](#) program.

Where will they show up next?

Watch out for Jen and Christine this summer on their mission of fun! Self-care is huge and we think adding laughter into the days of our partners is one way we can help! Check out photos from our Cinco de Mayo visits on [Facebook](#).

Ask the Expert

How do I write an Advanced Directive specific to Dementia?

Ann Cesafsky, LSW, explains the process of creating an advanced directive for someone with a Dementia diagnosis or family history.
